High End 2025 - TEAC, Esoteric, AKG and WeAreRewind

This years' edition of High End in Munich was special in many ways. First of all, it was the last time after 21 successful years in Munich and the High End Society is now moving to Vienna in 2026.

Aqipa has showcased the lastest innovations from Esoteric, from TEAC but we also integrated the highlights from AKG, Dangbei and We Are Rewind. We were even awarded "Highlight of the Show" by

TechRadar.

If you want to get a glimpse of what it was like, check out a few impressions and this video below.

Thanks for the great teamwork between Brand Management, Sales, E-Commerce the Warehouse, Sales Operations and Marketing!
