SOMETHING NEW IS COMING YOUR WAY

Romy

The company Robart was founded as an R&D center of excellence for AI-powered home robots. Normally our Asian partners start as OEMs and later develop their own brands. Who says, Europeans can't do that?

Look no further than to ROMY, the new robotic vacuum cleaner brand, born and bred in ... yes AUSTRIA. Their line of powerful robot vacuum cleaners will not only save you time and energy, but they will also leave your floors looking spotless.
