The Gear Guide

Hey Friends! Between the Christmas Pictures Christmas period is always pretty stressful, we're currently on a **road trip with Gel Blaster** through Germany, have just returned from the **ISPO** and are already planning a few **events for 2024**.

Gel Blaster

We are currently on tour through Germany and our Bazook Jet Team will be making more than 10 locations of our retail partners. With this campaign we want to bring the fun to the customers, they can try out the devices and compete against each other.

We received very positive feedback from the customers. People are into the shooter and really looking forward to the next dates. The products will also be presented at the Spielwarenmesse in Nürnberg. If you should be there, be sure to visit us.

If you want, you can compete in Instagram for the game, get to connect with us for Promo, Bonuses, and Giveaway Ideas.

MEET YOUR STORE

Milo goes Shops 1st Try

Next week, we will be presenting our #MiloGoesShops at Shops on Tour in Neuss this weekend in Town. This is a B2B event where 200 different snowboard shops will be on site to test the music lasers equipment for refurbishment.

A great opportunity to present the action communicators. The event will take place from 24 to 25 January. We are already looking forward to it!

Aiper
