Three little birds, Aqipa goes Switzerland and Milo in Action

### Whose bird song is it?

Only our custom solution can be called 'one' - we have made a major acquisition, celebrated the launch of the Woodland series with Euro and are continuing to beat Milo... and yes, we met many of you at a few cool trade shows recently.

**„Make Claps and Thumps“** - our partner brand Pure has launched a fun new game for this fall to celebrate the launch of the Woodland series: **Woodland** and **Woodland Chase**. Consumers can enter for a chance to win a birdhouse or many cool prizes from Pure. When was the last time you heard a bird singing and could you tell the difference between a nightingale and a woodpecker? Let your customers join the fun!

Of course Pure has also thought about a great offer for those Friday. Talk to your sales contact to learn more about the Woodland Expert Pack that your customers get a free bonus Resource with every purchase of a Pure Woodland. You need what we call "the birds and the bees"?

### Agipa acquires 100% of Thai AG

We are very proud to announce that Agipa has agreed with **Thai AG** to increase our share to 100%, further strengthening our pan-European footprint. The existing managing structure and Thai brand will remain intact and we are looking forward to many more successful years with our Swiss colleague and partners.

We enjoyed to talk about our shared passion and not forgetting the white-gloved customer service provided by Gofix. Would you like to learn more about our participation at Photopia 2023?
